

<b>Brand:</b>	Ramsey Winch
<b>Manufacturer's Part Number:</b>	121964
<b>Part Type:</b>	Winches
<b>Product Line:</b>	Ramsey RPH Series Winches
<b>Summit Racing Part Number:</b>	RWC-121964
<b>Winch Style:</b>	Hydraulic
<b>Pull Rating (lbs):</b>	45,000 lbs.
<b>Winch Fairlead Type:</b>	None
<b>Remote Included:</b>	No
<b>Free-Spooling:</b>	No
<b>Brake:</b>	Yes
<b>Power Out:</b>	Yes
<b>Drive Gear:</b>	2-stage planetary
<b>Winch Line Included:</b>	No
<b>No Load Line Speed:</b>	23.00 fpm
<b>Conforms to J706 Standards:</b>	Yes
<b>Mounting Hole Quantity:</b>	8 holes
<b>Mounting Pattern Length (in):</b>	20.620 in.
<b>Mounting Pattern Width (in):</b>	17.660 in.
<b>Gear Reduction Ratio:</b>	51.35:1
<b>Quantity:</b>	Sold individually.
<b>Notes:</b>	Recommended to use a 3/4 in. diameter cable.
<b>In-Store Pickup:</b>	Choose In-store pick-up (OH, NV, GA, TX) on our web site.

Get unbeatable power and fast line speeds with RPH Series winches from Ramsey. These planetary hydraulic winches are designed to be overwound or underwound, depending on your application. They're available with a manual or air shift clutch, which allows for remote shifting capabilities. The clutch disengages, providing easy, fast free-spooling with just 50 lbs. of resistance at -35 degrees F. The RPH Series winches require just one lubricant for all-temperature operation to -35 degrees F, so you don't have to change viscosity with the seasons. The RPH Series winches feature a compact design to make it difficult for cables to get caught between the drum flange and end support housing to ensure smoother operation. In addition, Ramsey RPH Series winches meet SAE-J706 standard ratings and can be easily installed with either a foot or side mount.
